The upward trend continued making new high in this ongoing rally. Ahead of expiry we expect markets to behave stock specific.

On comparing based on index levels nifty has gained 8% in February expiry and this means in January and February in all markets have gained 20%.

Now we are once again on threshold of very important level of 18500 for sensex and markets will be viewed with more positive bias once it sustains this level. Correction is overdue but, large fund flow is pushing index ahead as yesterday also FII bought stocks worth of 1400cr in cash markets. Market will be viewed with some weakness only if nifty breaks 5500 level otherwise party will go on.
