Domestic Market View

Markets to make optimistic start amid firm global cues

Indian markets ended slightly in red on Thursday as investors stayed on the sidelines ahead of assembly elections in Karnataka. Today, the markets are likely to make an optimistic start amid firm global cues. Traders will get some support with External Affairs Ministry Spokesperson Raveesh Kumar's statement that India was closely monitoring the situation arising out of Trump's announcement to pull the US out of the Iran deal. India will take necessary measures to offset any adverse impact on its interests due to US President Donald Trump's decision to dump the Iran nuclear deal. However, there will be some concern on private report stating that continuing fall in the rupee will push trade deficit up to a four-year high of \$178.1 billion or 6.4 per cent of GDP this fiscal year. The estimate comes amid a depreciation in the rupee against the dollar, wherein it has shed over 5 per cent to breach the Rs 67-mark to the dollar. There will be buzz in telecom stocks after Reliance Jio launched a new postpaid plan starting at Rs. 199 per month that will redefine postpaid services in the country. Stocks related to Hotel industry will be buzzing on report that the Authority for Advance Ruling (AAR) has said, Hotel or restaurant services provided to SEZ developers or units will not be treated as 'zero-rated' supplies and hence will be taxable under the Goods and Services Tax (GST) regime. There will be some important earnings announcements too, to keep the markets buzzing.

Domestic Market Overview

Benchmarks end lower on Thursday

Thursday turned out to be a disappointing day of trade, where frontline gauges failed to hold on to their early gains and ended in red terrain, as traders remained on sidelines ahead of the outcome of the Karnataka Assembly elections which will have larger implications for the way the capital markets will view the future of reforms. Markets started the session on an optimistic note as traders took some encouragement with India Ratings' report that the Indian economy is gradually coming out of the twin shock of demonetisation and GST which temporarily derailed growth. The ratings agency, however, cautioned on the possible widening of the current account deficit (CAD) due to rising oil prices which was creating pressure on the currency. Some support also came with Commerce Secretary Rita Teotia's statement that India is not expecting any major shift in trade with Iran following the US decision to re-impose trade sanctions against the Islamic nation. The bilateral trade between India and Iran has increased to \$12.9 billion in 2016-17 from \$9 billion in the previous fiscal. Additionally, Rita Teotia said that the commerce ministry is working with different ministries to formulate separate plans for 12 services sector, including IT, tourism and logistics, with a view to boost growth in these segments.

However, markets lost momentum and pared all of their gains in last leg of trade to end in red terrain. Sentiments turned pessimistic after International Monetary Fund (IMF) in its report highlighted that in India, given increased inflation pressure, monetary policy should maintain a tightening bias. The advice came at a time when oil poses an upside risk to the inflation. Earlier, the Monetary Policy Committee (MPC) had raised several areas of concerns, including high and volatile crude prices. Sentiments also remained dampened on Assocham's statement that President Donald Trump's announcement of the US pulling out from the Iran deal and his decision to re-impose sanctions on the key crude oil producer will exert pressure on fuel prices and affect the Indian economy on the downside.

Select companies in renewable energy space remained in focus after RK Singh, Minister of Power and new and renewable energy, said that India is making quick progression in the field of renewable energy and the government is committed to achieving the said target by 2022. Stocks related to insurance sectors remained buzzing on report that the government is considering allowing 100% foreign direct investment (FDI) in insurance intermediaries with a view to give a boost to the sector and attracting more funds.

Global Market Overview

Asian markets end mostly higher on Thursday

Asian equity markets ended mostly higher on Thursday as rallying oil prices helped lift energy stocks and US President Donald Trump said he would announce the site for a summit with North Korean leader Kim Jong Un within three days. Japanese shares ended higher on improved risk appetite as crude oil prices surged and investors digested a raft of local economic data. Further, Chinese shares ended higher after official data showed the country's consumer price inflation eased to a three-month low in April on weak food price growth, while producer price inflation increased for the first time in seven months on commodity prices. Consumer prices in China were up 1.8 percent on year in April. That was beneath expectations for 1.9 percent and down from 2.1 percent in March. Producer prices advanced an annual 3.4 percent - matching forecasts and up from 3.1 percent in the previous month. Meanwhile, Indonesian and Malaysian markets remained closed for holidays.

US markets closed higher on Thursday

The US markets closed higher on Thursday, with equities advancing in a broad rally that gave the Dow Jones Industrial Average its longest winning streak since February. Technology stocks led the day's gains, extending this month's trend. But Wall Street was also supported by the latest economic data, which suggested the economy was healthy, but not growing so quickly that it was at risk of overheating.

The Dow Jones added 196.99 points or 0.80 percent to 24,739.53, the Nasdaq gained 65.07 points or 0.89 percent to 7,404.98, and the S&P 500 was up by 25.28 points or 0.94 percent to 2,723.07.

Corporate News

- **Pennar industries** and its subsidiaries have received major orders worth Rs 347 crore across its business units. The company's subsidiary - Pennar Engineered Building Systems has received order from various clients MRF, GMR, Neel Metal etc.
- **Sharon Bio-Medicine** has received consent to operate its API plant located at L-6, MIDC, Taloja, Raigad district in state of Maharashtra from Maharashtra Pollution Control Board under Water Act, 1974 and Air Act, 1981.
- **Reliance Industries' (RIL)** telecom arm - Reliance Jio Infocomm (Jio) has unveiled its new postpaid offering 'Hello JioPostpaid' with a promise to redefine postpaid services in India. The all new 'JioPostpaid' will be available for subscription starting May 15, 2018. JioPostpaid marks a paradigm-shift in the way postpaid services are offered and consumed, just like Jio did with its prepaid services.
- **Newgen Software Technologies** has released OmniDocs 10.0, an enhanced version of its Enterprise Content Management (ECM) Suite. The version enables faster and accurate processing of documents and allows users to design document processes through a no-code wizard setup. This version offers enriched user experience with an intuitive and refreshed UI/UX.
- **Zensar Technologies** has launched customer delivery center in Research Triangle Park (RTP) Raleigh, North Carolina.
- **Indokem** has completed the process of acquisition of Land and Building situated at Plot No. 66, Chikhholi MIDC, Ambarnath, District Thane, Maharashtra. The company has paid consideration and peaceful possession has been taken.
- **Lupin**, under its consumer healthcare division - LupinLife, has launched Corcal Bone and Beauty, a novel calcium health supplement for women. It is made from 100% natural coral grains sourced from Okinawa, Japan, Corcal Bone and Beauty contains natural Coral Calcium and over 70 trace minerals like Zinc, Selenium, Gold, Magnesium, and Silica. Corcal helps strengthen bones and maintain healthy hair, skin, nails and teeth.
- **Max Ventures and Industries'** subsidiary – Max Speciality Films (MSFL) has launched its fifth BOPP films manufacturing line (Line 5), significantly increasing its capacity from 46.35 KTPA to 80.85 KTPA.
- **Alfa Transformers** received a letter of award valuing Rs 7.26 crore from Odisha Power Transmission Corporation for serving the needs of people in Odisha.
- Franklin Templeton Investment Funds (FTIF) has raised its stake in Eveready Industries India through open market purchase. FTIF has bought 800,000 equity shares or 1.10% stake of the company through open market purchase on May 8, 2018.
- **Goa Carbon** has reported production of 14,347.20 million tonnes (MT) of Calcined Petroleum Coke for the month of April 2018. Of the total production achieved for the month, Bilaspur plant produced 2,758.30 MT of Calcined Petroleum Coke; Goa plant produced 6,255.90 MT and Pradeep plant produced 5,333.00 MT of Calcined Petroleum Coke.
- **Vascon Engineers** has forayed into the value housing segment with the launch of its new project 'Vascon Goodlife', located at Katvi, Talegaon. The project that offers 1RK, 1BHK and 2BHK homes aims at providing not just affordable, but value homes with a strong focus on nurturing learning and growth making it a first-of-its kind learning infrastructure in a residential project..
- Government has not approved merger of Jet Airways and its subsidiary Jet Lite. As a result the merger scheme stands revoked and cancelled. **Jet Airways** and Jet Lite shall continue their respective operations as two separate legal entities with their respective Air Operator Certificates.
- **Great Eastern Shipping Company (GE Shipping)** has taken delivery of secondhand Medium Gas Carrier 'Jag Vayu' (1996 Built) of about 36,567 cbm. The company had contracted to buy the vessel in Q4 FY18.
- Khemani Distributors and Marketing has decided to close Gowardhan Ghee unit (**Parag Milk Foods**) as a distributor. The Board of Directors of the company at their meeting held on May 08, 2018, transacted the same.
- **Mukta Arts'** promoted - Whistling Woods International has partnered with Reliance Jio for a Development Lab dedicated for the Virtual Reality & Augmented Reality industry. The lab, named 'Whistling Woods Jio VR Lab', will be set up at the Whistling Woods International campus in Filmcity, Mumbai. The Lab will commence operations in mid-May 2018.

- **Hinduja Global Solutions (HGS)** is creating 100 new positions at its North Bay, Ontario customer experience contact centre in May to support a telecommunication client's business growth. The company will be holding an onsite job fair on May 15, at 390 Lakeshore Drive, North Bay, Canada. HGS is hiring this new staff to meet the needs of the growing partnership.
- HDB Financial Services (HDBFS) has selected **Nucleus Software Exports'** lending analytics solution to help them leverage the insights provided by their data and make faster and more informed lending decisions.
- **Infosys** has released new enhancements to its artificial intelligence (AI)-powered plug-and-play solution, Infosys Enterprise Service Management Cafe. The new capabilities further advance the adoption of ServiceNow with more than 40 solutions ready to be deployed across IT service management, user experience and mobility, as well as business process automation across human resources (HR), facilities, travel logistics and finance.
- **Ganesha Ecosphere** has received an approval for the allotment of 26,52,520 equity shares of face value of Rs 10 each at a price of Rs 377 per share (including premium of Rs 367 per equity share) aggregating to around Rs 100 crore. The Capital Raising Committee of the Board of Directors of the company at its meeting held May 9, 2018, approved the same.
- **Jamshri Ranjitsinghji Spinning & Weaving Mills Company** has temporarily suspended manufacturing at its Solapur factory due to steep increase in input costs, obsolete plant and machinery, adverse market conditions and acute shortage of labours. Also the implementation of GST has impacted the company's sales. The management is contemplating on the further course of action in this regard.
- **Reliance Infrastructure (RInfra)** is planning to raise long term funds by issuing equity shares by way of rights issue and Qualified Institutional Placement (QIP). The meeting of the Board of Directors of the company will be held on May 14, 2018, to consider the same.
- **CyberTech Systems & Software** has received an approval for incorporation of wholly owned subsidiary in the name and style of 'Spatialitics', LLC in the state of Delaware, USA. The Board of Directors of the company at their meeting held on May 09, 2018, approved the same.
- **Zydus Cadila** has received the final approval from the US Food and Drug Administration (USFDA) to market Carbidopa Tablets, 25 mg. It is used with a combination levodopa/carbidopa product to treat symptoms of Parkinson's disease or Parkinson-like symptoms (such as shakiness, stiffness, difficulty moving). It will be manufactured at the group's manufacturing facility at SEZ, Ahmedabad.
- **Glenmark Pharmaceuticals** will be presenting new and updated data on GBR 830 at the upcoming International Investigative Dermatology (IID) meeting in Orlando, Florida.
- **Aurobindo Pharma's** US subsidiary - Auromedics Pharma LLC has initiated voluntary recall of over 1.5 million bags of different antibiotic and anti-seizure injections from the US market due to lack of assurance of sterility.
- **Infibeam Incorporation** has received approval from National Company Law Tribunal (NCLT), Ahmedabad Bench, for scheme of amalgamation of Avenues India with itself and their respective Shareholders and Creditors.

Economy

➤ Indian economy gradually recovering from note ban, GST shocks: Ind-Ra

With improving major macro parameters like manufacturing, capital goods production, non-food credit and consumption, the credit rating agency, India Ratings and Research (Ind-Ra) has said that the Indian economy is gradually recovering from note ban and Goods and Service Tax (GST) shocks, which temporarily derailed growth.

The rating agency noted that the country may grow at 7.4% in the current financial year, if things continue to improve like they are improving now and the policy remains conducive. It further said that it was unlikely that the government would go ahead with big bang reforms due to the 2019 Lok sabha elections.

However, Ind-Ra expressed concern over the possible widening of the current account deficit (CAD), on the back of rising oil prices which was creating pressure on the currency. It also said that if the CAD remained within 3%, then it would not be alarming for the

economy provided capital inflows were in excess of outflows caused by high oil import bill and the rupee will have an appreciating bias.

➤ **India achieves 70 GW of installed renewable energy capacity: MNRE**

The Ministry of New and Renewable Energy (MNRE) has said that as per the data compiled till March 31, 2018, India has already achieved 70 GW of installed renewable energy capacity and an additional 38 GW is under implementation. It noted that the 70 GW installed renewable energy capacity in the country is double of the capacity four year back.

The MNRE has stated that about 56,000 solar power pumps were installed in 2017-18, which is highest ever in a single year. It indicated that the renewable energy sector has added 11,788 MW of capacity to the grid in FY18, which is the highest ever in a single year. Besides, it claimed that it has bid out 32,500 MW capacities in last fiscal, which is nearly 10 times capacity commissioned in 2013-14. It also boasted about discovering lowest wind and solar power tariff of Rs 2.43 and Rs 2.44 per unit, respectively, in the last fiscal through tariff based competitive bidding.

The ministry further highlighted that India generated 100 billion units of electricity through renewables last fiscal, which is highest ever so far. On the achievement of renewable energy in the country, Power and New & Renewable Energy Minister R K Singh has said that India is progressing fast in the areas of renewable energy and government is on its way to achieving 175 GW target for installed Renewable Energy capacity by 2022.

➤ **Govt mulling 100% FDI in insurance intermediaries to attract additional funds**

The government is mulling to permit 100 percent foreign direct investment (FDI) in insurance intermediaries in a bid to give a fillip to the sector and attracting additional funds. Intermediary services encompasses of insurance broking, third party administrators, surveyors and loss assessors.

Presently, the FDI policy allows 49 percent foreign investment in the insurance sector, which includes insurance intermediaries. There is a need to de-link the FDI cap in insurance intermediaries from insurance companies. Representations have been made to the government that these intermediary services should be treated at par with other financial services intermediaries, where 100 percent FDI is allowed.

Further, industry experts stated that the insurance sector is being impacted due to weak distribution networks. There is a need to strengthen the distribution network to support the sector as a whole. Besides, India's current insurance penetration rate stands at 3.42%, far below the global average of 6.2%. It was 3.3% in the country in 2014.

➤ **Trump's decision to withdraw US from Iran deal to hit Indian economy: ASSOCHAM**

A day after President Donald Trump withdrew the US from the Iran nuclear deal and decided to re-impose sanctions on the key crude oil producer, the industry chamber Associated Chambers of Commerce and Industry of India (ASSOCHAM) has said that this move will exert pressure on fuel prices and affect the Indian economy on the downside.

ASSOCHAM Secretary General D S Rawat has said that while there are other imponderables like Saudi Arabia trying to increase crude output along with major OPEC producers and the US allies like France not being on board, the global economy does face bouts of uncertainty and volatility. He added that in the short term, it is not a good news for the Indian economy, which meets bulk of its crude oil requirements from imports.

Trump had said that he was withdrawing the US from what he called the 'decaying and rotten' Iran nuclear deal signed by the Obama regime in 2015, putting him on a collision course with America's closest allies. Moments later he signed fresh set of sanctions against Iran and warned countries against any cooperation with Tehran on its controversial nuclear weapons programme. The nuclear deal was negotiated and agreed to by Iran and the P5+1 (the US, UK, France, China, Russia, and Germany), granting Iran sanctions relief and returning frozen assets in exchange for restrictions on its nuclear programme and international inspections.

CNX Nifty

Technical View

Index closed a day at 10716.55 with loss of 25 points on Thursday session and formed again bearish piercing pattern. This is second time where index has taken resistance near 10790 zone so if index managed to break the 10790 zone we may see a quick move towards 10880 zone which is another supply zone. Strong support for index is still coming near 10690 and 10640, holding these levels we may expect index to break 10790 zone in near term.

LKP Sec. Ltd. (CIN-U67120MH1994PLC080039, www.lkpsec.com) and its affiliates are a full-fledged, brokerage and financing group. LKP was established in 1992 and is one of India's leading brokerage and distribution house. LKP is a corporate trading member of Bombay Stock Exchange Limited (BSE), National Stock Exchange of India Limited (NSE), MCX Stock Exchange Limited (MCX-SX). LKP along with its subsidiaries offers the most comprehensive avenues for investments and is engaged in the businesses including stock broking (Institutional and retail), merchant banking, commodity broking, depository participant, insurance broking and services rendered in connection with distribution of primary market issues and financial products like mutual funds etc.

LKP hereby declares that it has not defaulted with any stock exchange nor its activities were suspended by any stock exchange with whom it is registered in last five years. However, SEBI and Stock Exchanges have conducted the routine inspection and based on their observations have issued advice letters or levied minor penalty on LKP for certain operational deviations in ordinary/routine course of business. LKP has not been debarred from doing business by any Stock Exchange / SEBI or any other authorities; nor has its certificate of registration been cancelled by SEBI at any point of time.

LKP offers research services to clients. The analyst for this report certifies that all of the views expressed in this report accurately reflect his or her personal views about the subject company or companies and its or their securities, and no part of his or her compensation was, is or will be, directly or indirectly related to specific recommendations or views expressed in this report.

Other disclosures by LKP and its Research Analyst under SEBI (Research Analyst) Regulations, 2014 with reference to the subject company(s) covered in this report: Research Analyst or his/her relative's financial interest in the subject company. (NO)

LKP or its associates may have financial interest in the subject company.

LKP or its associates and Research Analyst or his/her relative's does not have any material conflict of interest in the subject company. The research Analyst or research entity (LKP) has not been engaged in market making activity for the subject company.

LKP or its associates may have actual/beneficial ownership of 1% or more securities of the subject company at the end of the month immediately preceding the date of publication of Research Report.

Research Analyst or his/her relatives have actual/beneficial ownership of 1% or more securities of the subject company at the end of the month immediately preceding the date of publication of Research Report: (NO)

LKP or its associates may have received any compensation including for investment banking or merchant banking or brokerage services from the subject company in the past 12 months.

LKP or its associates may have received compensation for products or services other than investment banking or merchant banking or brokerage services from the subject company in the past 12 months.

LKP or its associates may have received any compensation or other benefits from the Subject Company or third party in connection with the research report.

Subject Company may have been client of LKP or its associates during twelve months preceding the date of distribution of the research report and LKP may have co-managed public offering of securities for the subject company in the past twelve months.

Research Analyst has served as officer, director or employee of the subject company: (NO)

LKP and/or its affiliates may seek investment banking or other business from the company or companies that are the subject of this material. Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients that reflect opinions that are contrary to the opinions expressed herein, and our proprietary trading and investing businesses may make investment decisions that may be inconsistent with the recommendations expressed herein.

In reviewing these materials, you should be aware that any or all of the foregoing, among other things, may give rise to real or potential conflicts of interest including but not limited to those stated herein. Additionally, other important information regarding our relationships with the company or companies that are the subject of this material is provided herein. This report is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or which would subject LKP or its group companies to any registration or licensing requirement within such jurisdiction. Specifically, this document does not constitute an offer to or solicitation to any U.S. person for the purchase or sale of any financial instrument or as an official confirmation of any transaction to any U.S. person.

Unless otherwise stated, this message should not be construed as official confirmation of any transaction. No part of this document may be distributed in Canada or used by private customers in United Kingdom.

All trademarks, service marks and logos used in this report are trademarks or registered trademarks of LKP or its Group Companies. The information contained herein is not intended for publication or distribution or circulation in any manner whatsoever and any unauthorized reading, dissemination, distribution or copying of this communication is prohibited unless otherwise expressly authorized. Please ensure that you have read "Risk Disclosure Document for Capital Market and Derivatives Segments" as prescribed by Securities and Exchange Board of India before investing in Indian Securities Market. In so far as this report includes current or historic information, it is believed to be reliable, although its accuracy and completeness cannot be guaranteed.

All material presented in this report, unless specifically indicated otherwise, is under copyright to LKP. None of the material, nor its content, nor any copy of it, may be altered in any way, transmitted to, copied or distributed to any other party, without the prior express written permission of LKP
