## 2. Commodity & Currency Research Desk

- Gold prices traded very volatile as we saw a 1000rs drop in Gold from 46600 to 45600 in first couple of days of week, and later prices recovered as the Covid-19 Delta variant spreading rapidly globally kept support at lower levels in Comex & domestic Gold prices. Rupee Rupee traded in a range between 74.10-74.60 with very less moves as dollar index stayed positive above \$92.50 but Crude prices were weak helping rupee to not fall beyond 74.50.
