## 2. Commodity & Currency Research Desk

- Rupee traded in weak closer to 76.00 mark touching 52-week low after USDINR prices have surged in Dec21 rapidly from 75.00 to 76.15, on back of OMICRON new variant uncertainty along with rise in dollar index and profit booking in risky assets like secondary capital markets. Going ahead rupee can be seen in range of 75.75-76.25.
- Gold prices traded positive from last week 48000 to 48700 on back of positive trend in Spot prices trading near \$1800. Fed reserve policy gave views for positive trend in Gold prices, as FED statement of rising interest when along with supportive collective data. Lower bond prices and selling in dollar index also helped Gold prices to scale higher this week.
